

NEW OPPORTUNITY!

Get paid to support the electric grid

Zeeland Board of Public Works has chosen Voltus as its demand response (DR) provider for its member utilities to work with.

How does DR work? Earn cash simply by making short, voluntary reductions in electricity use during periods of high grid stress.

Even better? Voltus technology makes DR easy and transparent with visibility into your real-time energy consumption, instant access to your earnings and performance, 24/7 support from humans, and more.

Log in to your Voltus account to view your earnings and real-time energy consumption

Earn up to \$50,000 annually per MW-year

- 1 Help prevent electricity disruptions
- 2 Get paid to be on standby to support your community
- 3 Receive advance notice of potential rolling blackouts
